MORE THAN
A SUPPLIER
4 YOUR SHIP

Morgan 4Ship S.r.l. is a shipchandler in north-west Italy. Through our warehouse and office in Navacchio, we organize deliveries to all ports of central-northern Italy, providing high quality products to shipowners, naval managers and their customers, and handling complex deliveries worldwide via land, sea or air.

With a forward-looking business strategy, we operate with the goal of making our hub the key point for daily services to the main ports in central and northern Italy, staying one step ahead of the competitive market.

Your partner in central and north Italy!

Ship supplier

The core business of our company is shipchandling. From provisions and galley items to spare parts, we can supply everything a ship and its crew need. In addition to furnishing vessels, we offer import and export, warehousing and logistics services.

We provide our services to any type of vessel, from small river cargo to oil tankers, bulk carriers, tugs, cable-laying, dredges, Ro-Ro, cruise, container and military ships, ferries and yachts. Taking care of the ships and the crew, we are dedicated to manage every request in the best and efficient possible way.

The services we can offer

Food and beverage

Over 1,000 high quality items including fresh, frozen, and starchy products, drinks, and more, available in stock or within 24/48 hours.

Technical stores

More than 2,000 items for machinery, deck, accommodation, including tools, safety equipment, engine and electrical, clothing, nautical publications and leisure products.

Bonded stores

Customs and VAT-authorized depot, offering personal care, drinks, snacks, and cigarettes, optimizing import/export operations.

Catering

Through our parent company Fratelli Cosulich S.p.A., we can ensure and organize every catering and food supply required.

Our warehouse

Our warehouse area is about 5,600 sqm, with plenty of space to receive and stock/store spare parts, relying on features that make it unique for developing every business. We offer different types of cold rooms, and a total area of 2,800 sqm to different temperatures from -20°C to + 15°C.

Our office area covers 300 sqm, while the total area of the company is 7,000 sqm. Furthermore, we can also offer a foreign warehouse, and areas dedicated to non-refrigerated food products and non-food items. Food products are coded by batch and expiration date, while technical items' codes are based on the I.M.P.A.'s catalog. If requested regularly, we can also stock special items.
